

Remarks

The related PCT application was originally filed in French, and the instant application, the national phase entry of the PCT application, is a translation of the French language PCT application. The specification has been amended to insert those headings appropriate for U.S. prosecution, such as "Field of the Invention," "Background of the Invention," "Summary of the Invention," "Brief Description of the Figures," and "Detailed Description of the Invention."

The original claims have been cancelled, and new claims presented. These claims present no new matter, and are believed to be in proper form for consideration on the merits. Entry of the amendment, and prompt consideration on the merits, is respectfully requested.

Respectfully submitted,

David S. Bradin
